

HOME FROM HOLIDAY
Mrs. D. N. McCormack, of 1928 Andree ave., accompanied by her daughter, Mrs. W. O. Clausing and her niece, Miss Shirley McVicar, returned Sunday from a week's vacation at Lake Tahoe.

There Is No Shortage of Recordings at the NATIONAL

We make it a point to see that our library of recordings includes all of the latest hits in dance tunes, as well as all of the old-time numbers that are so popular these days.

—Two recording booths so you can hear them before you buy. We also carry a complete stock of home-recording discs, recorders, radio phonographs and record albums. Try The National first.

No. California Tops In Rubber Drive Collection

The difference between 7½ and 215 separated Torrance from Delano in the per capita collection of scrap rubber during the recent drive. Delano captures the per capita championship of the state, using girls in bathing suits to extract rubber floor mats from passing automobiles for a per capita collection of 215 pounds.

Judging from incomplete reports received by The Herald, Northern California outdistanced Southern California in the rubber campaign by wide margins. Rubber drive officials believe that the record of the Sacramento district—5,548 tons—will be near the top on the list of total donations throughout the nation.

On the last day of the campaign alone, 896 tons were collected in the Capital City. San Francisco flopped on its drive, however, gathering only 1,869 tons of its quota of 16,000 tons.

Other Drive Figures
In Torrance, the total collection was 74,399 pounds or 37,199 short tons—a per capita collection of approximately seven and one-half pounds. In Lomita the drive netted 54,455 pounds while Harbor City amassed 32,659 pounds for a per capita contribution of six and one-half pounds by Lomitanes and nearly 11 pounds by Harbor Citizens.

Corning, Tehama county, was second on the California per capita list with 200 pounds and Dobblins, Yolo county, was third was 194.

Other northern California towns and their per capita collections included:

- Visalia, (10,000 population and over) 47 pounds.
- South San Francisco (6,000 to 7,000) 41.
- Auburn (4,000 to 4,500) 114.
- Yreka (2,500 to 3,000) 114.
- Orland (1,500 to 2,000) 182.
- Brentwood (500 to 1,000) 148.
- Leevining (250 to 500) 163.

Election Printing Costs \$108,505

Printing work on the August and November election ballots will cost a total of \$108,050, according to the low bids obtained by J. M. Hughes, acting county purchasing agent.

Sample ballots are printed on white low-cost paper, but the official ballots at each election must be printed on special state water-marked paper, which for the August primary alone will cost \$13,948 and must be added to the cost of printing. Paper for the November election has not yet been purchased by the county.

Santa Fe Men Win Promotions

H. H. TISDALE

O. L. GRAY

Promotions and transfers of several officials of the Santa Fe Railway's operating department were announced this week as effective at once.

O. L. Gray, of Los Angeles, assistant general manager, goes to Chicago as assistant to the vice president in charge of operations. He entered service with the company as a file clerk in 1909. He was promoted from trainmaster on the road's Valley division to superintendent of the Albuquerque division in 1936 with headquarters at Winslow, Ariz., and was named as

assistant general manager, Coast Lines, on August 10, 1941, making Los Angeles his headquarters.

Succeeding Gray is H. H. Tisdale, assistant to the general manager whose headquarters are Los Angeles. He has been in charge of personnel. Starting his railroad career in St. Paul, Minn., he entered Santa Fe service in 1908 at Los Angeles. He served as trainmaster for fifteen years at various points, and spent five years as superintendent at Needles.

Total Peace With Four Freedoms Assured for All Nations Said Goal

By MISS ADA CHASE

The subject of a recent conference at Whittier College was "America's Part in Creating the World We Would Like to Live In."

What kind of a world would this be? Surely all thinking Americans agree, it would be one where every other race, nation and creed could enjoy the four freedoms—where, in short, everyone would love his neighbor as himself.

The difficulties of obtaining and safeguarding these benefits for all inhabitants of our complex world are almost insurmountable—nevertheless we must begin to adjust ourselves to this viewpoint, or ourselves be drawn into the totalitarian whirlpool.

Leaders of New World
In the United States, our settlers lived a "regional" life. Since the Civil War, we have lived a "national" life. In the future we must live an "international" life.

But, according to the experts at the Whittier conference, after the war our citizens, weary and disgusted over the great cost of this war in "blood, tears and sweat," will probably be swept by a great wave of "isolationism" and against this we must stand guard. Our opportunity to establish new values in a world of famine and despair will be much greater than we now realize.

The United States with England, China and Russia will be the leaders of the new world, if and when the Allies win and it was emphasized that we must understand that not all of these interpret or practice democracy in the same way. We must work constantly as individuals, associations and nations, to develop the ideas of tolerance, justice and love which will build the new world. But we must also keep our minds flexible to meet conditions that arise.

Church Is Foundation
The church is one of the few organizations which reach across national boundaries—it is her special task to improve the life of the individual; strong individuals will make strong nations and strong nations will make a strong world.

This is a "total" war; we must have a "total" peace. It can be a "total" peace, only as it serves the interests and conserves the culture of every nation on our planet.

This is the conclusion presented by the experts in economics, social and political science and religion, who spoke at

the eighth annual Institute of International Relations held at Whittier College this summer.

YES, SIR!

"I can sell anything of value which you possess—or I can rent any desirable vacancy—or I'll find capable help for you."

"I am available to more than 25,000 readers—that's why I get quick, profitable results."
"I am a Torrance Herald-Lomita News CLASSIFIED AD and you can put me to work for you by telephoning Torrance 444 or Lomita 84."

Food Wardens New CD Unit

Appointment of a woman food warden for every block in this community is being considered by the State Council of Defense, according to Dr. Agnes Morgan, chairman of the committee on nutrition.

The food warden's duties in case of a disaster would be to obtain information about food supplies of the families in her area and advise the proper authorities in case of need.

While the Red Cross would be on hand to look after the actual victims in case of enemy bombings, many other people, whose water, milk and food supplies may have been interrupted, would need help. The food warden would aid in bridging this gap.

War Construction Hits All-Time Record

War construction is running at a rate of about \$12,500,000,000 a year, it was estimated today by W.P.B. A further increase in building is expected to send the volume of essential construction past the \$13,500,000 mark by the end of the year.

SAID IMPROVING
Mrs. Chet Harrell (Marie Smith) of 513 Sapphire ave., Redondo Beach, reports that her husband who was entered this week at Torrance Memorial hospital for an emergency appendectomy, is making a satisfactory recovery.

OLD FASHIONED BARGAINS

THREE CHEERS FOR THE BARGAIN HUNTER!

Budget-stretching is a fine art . . . and one that we all must learn. It is vital to "Thrill and Savings for Victory."

One way to stretch budgets is to select the things that will give us the longest service so replacements can be put off as long as possible.

Another way to stretch the budget is to watch every newspaper ad with a sharp eye. An advertisement like this, for example, is full of things for the thrifty!
